LARGE BLOCK INDIAN ALLOY 200/225

I'm a busy man and these things take time, if you email me say 'hey Mark finish the SR/KA 200 section please' [mark@mbscooters.co.uk](mailto:mark@mbscooters.co.uk)

We call these cylinders the SR Scooter Restorations or KA – Kohli Auto cylinders.

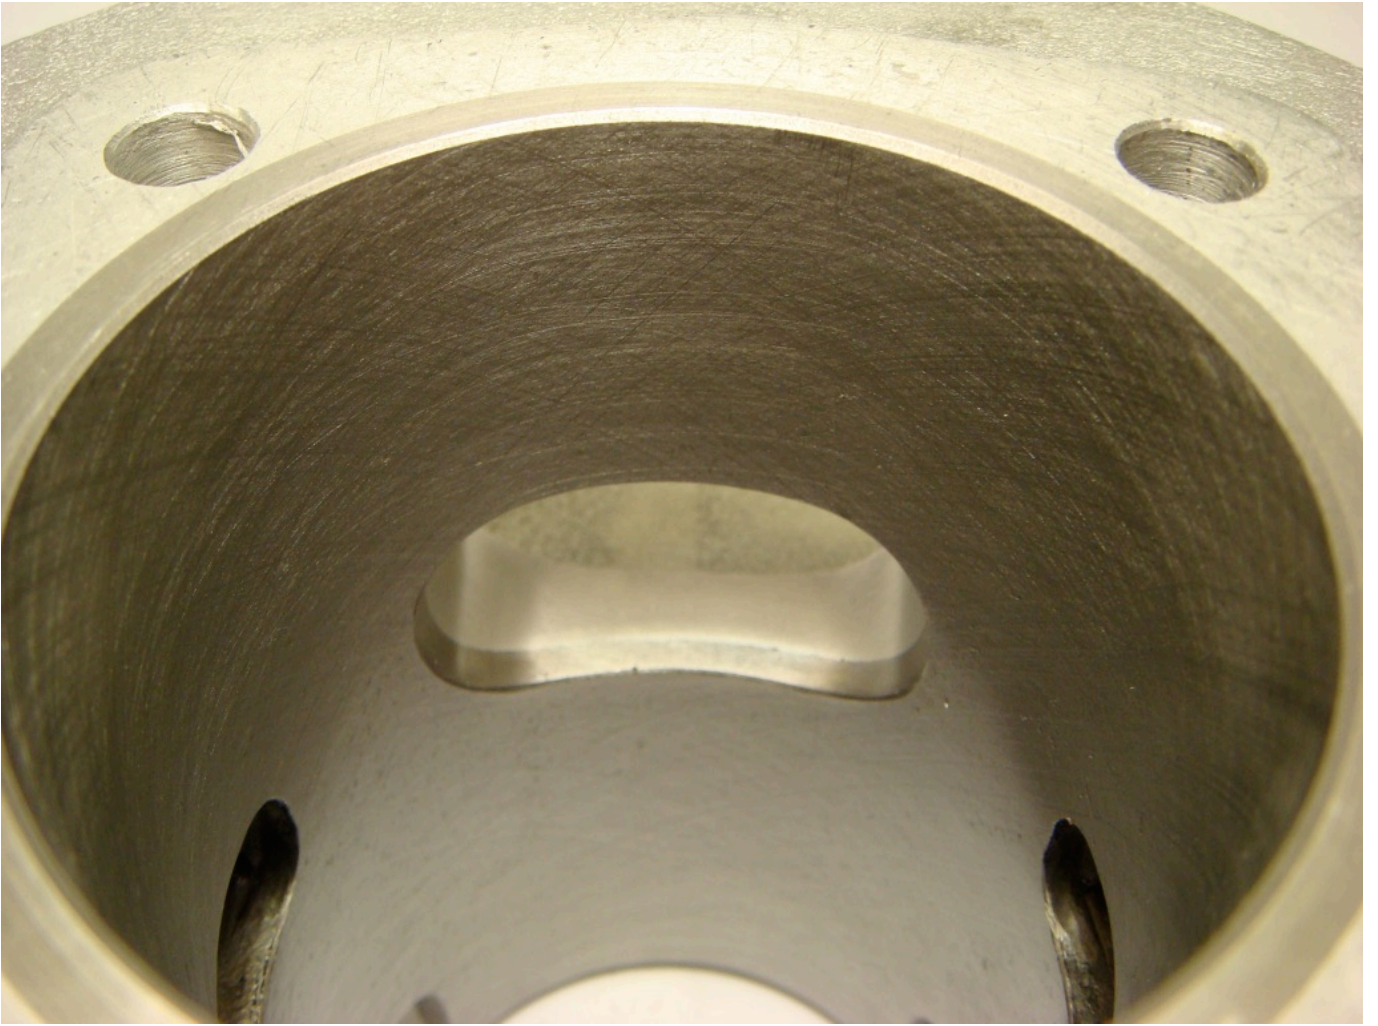

We're not sure what else to call these kits, we could be rude and call them those cheap shit alloy kits found on ebay but perhaps they should just be called the Indian Alloy Iron lined kits..... but that's a bit long.
