## MB WIRING LOOMS

Everyone wants something different, the beauty of our looms means you can virtually do what you want – they are so universal.

If you are different – just following the various example drawings which should get you on your way,

Using different types of MB Lambretta looms allows several combinations of simple AC or slightly more complicated AC/DC or Full 12 volt DC systems whether you are using a Ducati based ignition (AF, SIL, BGM, Scootronics, Readseed) or a Vape/Varitronic/Casatronic or any other system.
